Federated authentification systems USING the Austrian Economic chambers login

Dr. Gerhard Laga, Federal Austrian Economic Chamber Servicemanagement and ICT E-Center

What is WKIS?

- WKO-Benutzerverwaltung (WirtschaftsKammer-IdentifizierungsSystem)
- since 2015 based on personal identities, open for everybody
- Membership by law for independent business venture in crafts and trades, industry, mining, finance, banking and insurance, transport, information and communication, broadcasting, tourism and leisure, as well as other services, ~ 542.000+ memberships
- Match between humans and companies during a one time process (similar than USP.gv.at)
- afterwards companies can administer themselves

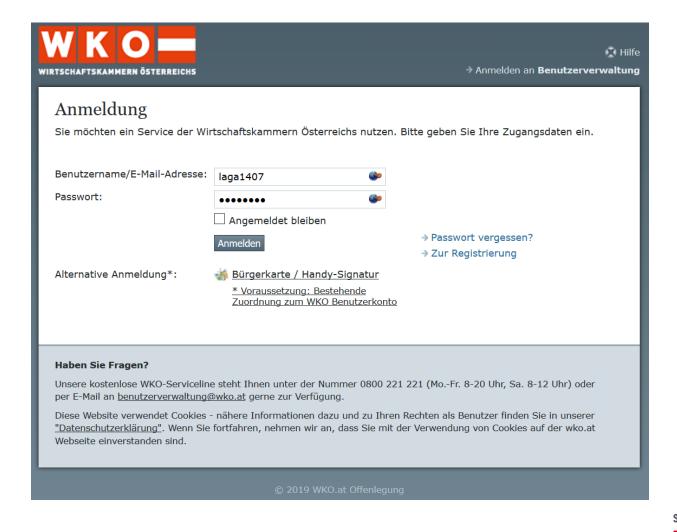

Identity Management and WKIS

- WKIS shall also be usable for electronic applications BETWEEN companies or portals
- The managing director can authorize his employees in wko.at to work in the name and for the account of the company in participating portals/roles.
- The employees use their own access data!
- The managing director can withdraw the authorization at any time.

What is WKIS?

Usecase Compass

- Compass-Group is a leading provider of company information in Austria, which employs around 70 people and offers an extensive range of electronic information services, including the Firmen-Compass, firmeninfo.at, marketing addresses, information portals as well as an online archive on European economic history.
- Wirtschafts-Compass as a core B2B service
 - no online registration process available on purpose
 - BUT: Trust in WKIS identities from companies
 - login with WKIS identities at <u>wpv.compass.at</u> possible

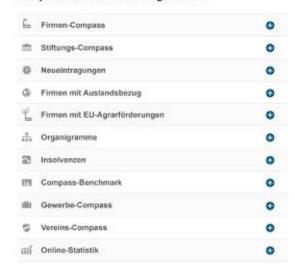

Usecase Compass

View after login with WKIS

Nach Ihrer Registrierung sind folgende Compass-Services für Sie freigeschalten:

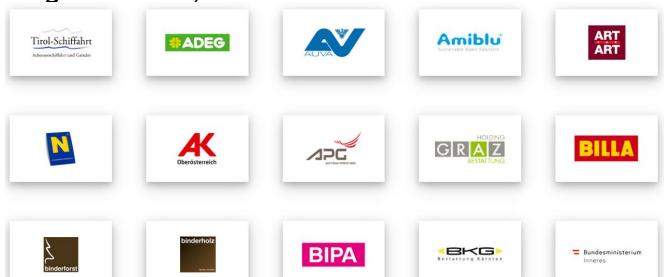

Bitte vervollständigen Sie Ihre Daten, um alle Services nutzen zu können.
